

Taste

taste of Edinburgh

The World renowned Taste Festival in Edinburgh saw McRobbs build no fewer than six stands which were all installed in a single day.

To make sure we could meet this tight build schedule and to reduce the possibility of last minute surprises we presented each of our clients with fully rendered and scaled, 3 dimensional visuals of their respective stands. This allowed them to visualise, and walk through, their display area before finalising the design.

Graphics were digitally printed and mounted onto Foamex to fit into the shell scheme or printed onto specially formed panels to create a seamless graphic wall. LED monitors were also accommodated within the design as were impressive floor graphics.

If you want to find out more about our exhibition services or discuss a project of your own, why not give us a call on 0131 556 9633 or log onto mcrobb.co.uk
